PASTURE RAISED CHICKEN, TURKEY, GEESE, PORK AND LAMB

Coulee View Family Farm is a small family farm located just 15 miles northeast of Prairie du Chien. Our mission is to produce healthy, nutritious, delicious food that you can feel good about eating. We raise our animals kindly, humanely and ethically allowing them daily access to fresh air, clean water, green grass and sunshine.

"**Pastured Poultry**" is the term used to describe how we raise our chicken, turkeys and geese. Typically, the day-old poultry arrives by mail. They are then introduced to a warm, cozy indoor brooder environment where the temperature is regulated to meet their need for heat and safety. Once these birds are old enough (around 3-4 weeks of age), they are transferred to our grass pasture. Their pasture area is secured by a portable electric fence which is used to keep them safe from predators. Portable shelters provide the birds with shade from the sun and protection from the rain. By regularly moving the fence and shelters, our poultry have access to fresh vegetation and bugs at all times. This gives our flocks a clean healthy environment to thrive in. All of our poultry are fed locally custom mixed grain from day one. Our feed is totally drug free and contains no chemical additives, no meat by-products and no artificial hormones.
